YOUR CUSTOMER VALUE PROPOSITION

To make generating revenue easier the typical management consulting services have been positioned as business growth products. This makes it easier to sell and communicate the value to the customer. The platform enables once off revenue generation earner by selling the business growth diagnostic and report to the customer. Once this is done it is then easier to convert the customer into a monthly payment plan linked to the improvements that you will help them achieve

Each of the solutions are aimed at larger and more complex customers. The Business Builder is aimed at businesses generating between 0 and 10 million per annum, the Growth Accelerator is aimed at businesses generating between 11 and 50 million per annum and the Turn Around Strategiser targets businesses generating more than 50 million per annum.
